**The most durable, longest-lasting bumper support available; that fits most types of go-karts.**

## Why use A-Rubber over D-Rubber?

- The unique "A" design with rounded edges helps prevent cracking and splitting.
- The "A" shape assures rubber- to-bumper contact.
- Only heavy duty material is used.
- It's used on every new J&J go-kart.
- We have it in stock.
